

# Taking Care of the Planet

Years 3& 4 Summer 2, Cycle A

In Science we will experiment and measure things in the natural world such as rainfall and temperature. We will look at how people are trying to protect the environment around the world, in Geography and in Art and DT we will create garden decorations and sculptures with recycled materials.

| | | | |
|---|---|---|---|
| English | Our genre focus for reading and writing is a balanced argument and comparing this to persuasive text.
