

Woodlands

Years 3& 4 Summer 1, Cycle B

In Science, we will learn about plants. We will make observations of plants and in Geography we will look at maps and trails. We will learn to use a compass. In DT, we will make mini dens for woodland animals. We will make botanical Art and flower designs.

English	Focus genre-traditional stories and fairytales, and our class book is Grimm's fairytales. We will be looking at different retellings of traditional stories and writing our own fairytale style story. We will also look at persuasive writing.	Maths	Year 3 will cover Fractions and Time. Year 4 will cover decimals and Time.
Science	Our Science topic is plants and we will learn about the parts of a flowering plant, it's requirements for life and growth, water transportation, pollination and seed dispersal.	P.E.	Quad Kids- athletics Cricket/rounders
History	-	Geography	We will follow and draw maps, set trails and learn about keys on a map. We will look at a local map and find some familiar landmarks.
PSHE	Money Matters	RE	What can we learn from religion about deciding what is right and wrong?
Computing	Multimedia	Music	Our song to learn though our music scheme, Charanga, is Blackbird.
Art	We will create collages using natural materials, exploring shape, texture and colour. We will look at the patterns that occur in nature, and use our sketchbooks to record them.	Design	We will design make and evaluate animal dens or houses, for wildlife such as insects, frogs and toads, birds or hedgehogs.
